Auction Information & Process for Bidders/Sellers

Sellers:

- Complete one register card at the Seller Register table for each item to be placed in the auction.
- One section of card is "Item information". Auctioneer will read your description so write clearly and describe the important features of your item.
- Note above rules of combining low price incomplete kits, engines, radios, and miscellaneous parts. Realistic auction value should be greater than \$20 per auction package.
- Leave all sections of the card together. Wingmasters will separate your seller card when you bring the item and card to the table.
- Critical- Wingmasters will return the "Sellers Receipt" to you as you bring the item to the table. This is your only proof of ownership and payment for that item.
- Once your item is sold, the bidder is requested to pay within a reasonable amount of time.
- Show your seller card number at the Seller Cash Out table to pickup your money.
- Important – There is no reserve price on any item. You can bid on your own item if it's not selling for the minimum amount you're wanting but you will be required to pay the 10% of the total amount to Dayton Wingmasters not to exceed \$20.00.
